SOLR®

PORTABLE TEST STAND

The SOLR® Portable Test Stand is a test console that allows personnel to check the correct operation of bailout bottles, pre-breathers, and oxygen masks (non-dilution only) as a go/no go test before operational use. It can also be used for the level 2 testing of the parachutist oxygen equipment when used with the accessory kit.

The SOLR® Portable Test Stand is constructed to be easily deployed in the field and does not need any electrical power to operate.

Performance and Features

- Easily portable & User friendly
- Lightweight at just 32.4 lbs (14.7 kg)
- Comes in a Pelican case for rugged durability
- Perfect for field testing
- No power needed

Specifications

Part Number	607200-0
Dimensions	20.5" x 17" x 8.5" (52.07 cm x 43.18 cm x 21.59 cm)
Weight	32.4 lbs
Gauges (Pressure, Inhalation/Exhalation)	annual calibration required
Regulator	500 max inlet pressure 5-55 max outlet pressure
Pressure Relief Valve	120 psi
Lowest Operational Temperature	0 °C
Maximum Exposure Temperature	50 °C
Recommended Maximum Long Term Storage Temperature	32 °C
